FOR IMMEDIATE RELEASE

CROWNED HEADS ANNOUNCES MIL DÍAS BELICOSOS FINOS LE 2023

Crowned Heads is pleased to announce a very special holiday limited edition release, the Mil Días Belicosos Finos LE 2023.

The Mil Días Belicosos Finos LE 2023 showcases the highly-acclaimed Mil Días blend in a classic 5 1/2" x 52 Belicoso Fino vitola, drawing inspiration from the legendary Bolivar Belicoso Fino (CUBA). "This year has been so successful for Crowned Heads, and we wanted to close it out not only with a bang, but also with offering something special to everyone who's supported us," commented Crowned Heads co-founder, Jon Huber. "Historically, we've only utilized the Belicoso Fino vitola in our Le Carême blend as a limited edition, and recently as a sampler exclusive size in our Las Calaveras EL 2023 sampler. The size really lends itself brilliantly to the Mil Días blend, and the result is a flavor experience packed with layers of cream, wood, tea, and an underlying floral quality, as well."

The blend is comprised of a Nicaraguan binder, filler tobaccos from Nicaragua, Peru, and Costa Rica, and is finished with a gorgeous Ecuadorian (Habano) wrapper. Production is limited to 1,500 (12-count) boxes, i.e., a total production of 18,000 cigars for the global market. The suggested retail price for the Mil Días Belicosos Finos LE 2023 is \$12.95 per cigar.

Mil Días Belicosos Finos LE 2023 is manufactured at the TacaNicsa factory in Esteli, Nicaragua, under the supervision of Eradio Pichardo. Shipping will begin mid-November.
