FOR IMMEDIATE RELEASE

Litto and Ines Gomez Celebrate 30 Years of Innovation and Excellence in the Premium Cigar Industry with the Release of the Exclusive LFD 30 Years Commemorative Cigar

Coral Gables, Florida - In the span of only 30 years Litto and Ines Gomez have etched their name into the history of cigars in ways beyond what they could have imagined back in 1994. They've won the cigar world's highest honors and revolutionized it through innovative blends and vitolas as well as creating the world's first cigar NFT.

A 6 1/2" x 58 box pressed Chisel, this beautiful cigar was created to commemorate those 30 Years in the way LFD best knows how. Featuring a dark Ecuadorian Sumatra wrapper, a rare aged Dominican binder from Cotui, and a blend of carefully selected fillers from our farm in La Canela, the smoke is rich and decadent, with a depth of dark flavors, spice, and body that result in an experience unmistakably LFD.

The LFD 30 Years will be released in humidors containing 60 cigars of which only 2,000 will be released. The humidors themselves were crafted at the Gomez family's own box factory in the Dominican Republic.

La Flor Dominicana is a vertically integrated premium cigar company, where we proudly control the process from the seed to the final grading, inspecting and packing process. Our tobaccos are grown at our farm in La Canela, Dominican Republic. Our factory is located in Tamboril.
